Compared to FIFA 17's AI, FIFA 22's AI has improved. It's faster and more aggressive. The ball control is now even better. I also enjoyed the game and the moments I missed last year I can enjoy in this year's game. The goalkeepers are also awesome and have improved also. The game looks great. I'm glad FIFA is one of my favorite sports title. I also love the graphics and overall gameplay. The atmosphere of the stadiums are extremely well done and the details of the players' shirts is just amazing! I totally agree with the Reviewer.. honestly i think FIFA 18 is a better game but FIFA 22 is a big improvement from FIFA 17. The gameplay is smooth and great i can't wait to play more. Although there's not any FIFA '19 available yet but i'm looking forward to it. Now i can play it on PS4 as well as Xbox One. I would recommend this
